

## Aug 30<sup>th</sup> Rec Report

1. Netting is complete. Looks great. Have extra clips and netting from vendor to repair any breaks. JCP&L has been contacted. A street light needs to be moved as the bolt from street light could rip netting. Didn't realize it was that close but will be moved.
2. Pool caulking issue. The police want me to file report and they will install temporary inferred camera to pool lights to try to catch who is doing this. More caulk missing today. Pool cover will be installed first week of October.
3. Lining park fields for soccer tomorrow.
4. Starting maintenance to pool house this week as I have 4 days to complete some needed painting and concrete work to pool area.
5. Heard of lots of compliments to from the pool patrons. We actually had a veteran of the Afghanistan war doing physical therapy at the pool.
6. I would request Rec Commission to bring up and pass a Veteran/Active duty discount of half price for all levels of memberships including daily passes. This is the right thing to do to support our veterans and the ones who are currently protecting us from harm's way.

Thanks

Jeff
